OCTOBER

October Birthstone

Opal • Pink Tourmaline

Because **opal** has the colors of other gems, the Romans thought it was the most precious and powerful of all. The Bedouins believed that opals contained lightning and fell from the sky during thunderstorms. The ancient Greeks believed opals gave their owners the gift of prophecy and guarded them from disease, while Europeans have long considered the gem a symbol of hope, purity, and truth.

Very few gems match **tourmaline's** dazzling range of colors. From rich reds to pastel pinks and peach colors, intense emerald greens to vivid yellows and deep blues, the breadth of this gem's color range is unrivalled. The confusion about the stone's identity is even reflected in its name, which comes from "Toramalli", which means "mixed gems" in Sinhalese (a language of Sri Lanka).
